

“Delivering Value Series”

The Security Landscape

Come enjoy breakfast and conversation about the dynamic Security Landscape with one of the industry's experts!

Sam Cattle, is a security leader focused on Security Governance, Compliance Management, and Security Solutions Development with certifications that include: MSIA, CCISO, CISM, CRISC and CISSP.

Mr. Cattle's expertise allows him to translate security concepts into business language at the boardroom level.

“Organizations today are experiencing security challenges that their existing programs and infrastructure are ill-equipped to handle.”

“In response to the growing number and types of threats, laws and standards expand to attempt to secure sensitive data.”

Please join us for a morning with good information, food and networking!
